## **VINCI Energies acquires ADM Systems Engineering in Canada**

VINCI Energies acquires ADM Systems Engineering Ltd in Canada, a multi-disciplined engineering and system integration firm in automation, data management, mechanical design and industrial energy management. With this acquisition, VINCI Energies enhances its industrial services portfolio overseas.

ADM is an engineering company since 2002. Operating from two offices in Atlantic Canada, the company grew steadily, adding a third office and expanding services as well as geographical reach. In 2016 ADM realized with 40 employees a turnover of 4 million euros. ADM serve customers in the industrial market segments Food & Beverage, Mining, Automotive, Power-Gen and Forest products.

ADM will be part in time of Actemium network, the brand of VINCI Energies dedicated to Industry market, with 300 business units in more than 40 countries.

This network of business units serves their customers locally as well as globally. With this acquisition, Actemium will start offering solutions and services in Industry in Canada, including to its multinational customers, that are increasingly recognizing the Actemium network as a valued partner to fulfil their world-wide quests in production optimization.

### **About VINCI Energies**

In a world undergoing constant change, VINCI Energies focuses on connections, performance, energy efficiency and data to fast-track the rollout of new technologies and support two major changes: the digital transformation and the energy transition. With their strong regional roots and agile organisational structure, VINCI Energies' business units boost the reliability, safety and efficiency of energy, transport and communication infrastructure, factories and buildings.

2016: €10.2 billion revenue // 65,400 employees // 1,600 business units // 52 countries

### **About ADM Systems Engineering Ltd.**

ADM was incorporated in 2002 by four principal partners as an engineering company. Operating from two offices in Atlantic Canada, the company grew steadily, adding a third office and expanding services as well as geographical reach. Significant milestones were reached achieving growth objectives, developing and commercializing application software. As a result, ADM works globally with industry leading companies in a range of industrial sectors, enjoys positive commercial relations with its supply chain and is ISO9001:2015 and CSIA certified.
